

EYEMOUTH HARBOUR LOCAL NOTICE TO MARINERS No. 3 of 2022

Survey Work in Harbour 22 to 27th August and Impact to Mariners. Date of Issue: 16th August 2022

From the 22nd to 27th August 2022, SEP Hydrographic will be onsite in Eyemouth Harbour conducting survey work with a 7.2m catamaran, *Pulsar* [see image below].

The vessel will arrive onsite on 22nd August and start survey work on high water on 23rd August after mobilisation.

Survey of all areas within the harbour limits, including the canyon, basin, and lower harbour will be conducted on 24th, 25th and 26th of August 2022 with demobilisation scheduled for 27th August with potential for some survey work on this day.

During this time, the area on the pontoons and harbour walls will need to be cleared on specific days with Eyemouth Harbour Master coordinating when and where vessels are to move to.

Eyemouth Harbour will be closed to visiting yachts enabling the visitor pontoons to be used by resident boats when the East Pontoon is surveyed.

During this period your patience and cooperation is requested to enable the smooth running of the hydrographic survey, which is required to effectively plan future dredging campaigns. Eyemouth Harbour Master will be in contact to organise any specific vessel moves as required to create space for the survey.

Thanks in advance.

By order of the Harbour Master

Brendan Bates

Eyemouth Harbour Trust
